

## **Behavior TLC's Summer-Only ABA Program**

Over the years BTLC has learned that many of our clients need a summer-only program to better accommodate their busy school schedules. Most of our clients who utilize this service are those:

- With a strong history of ABA intervention
- Who have adequate behavioral support throughout the school year
- Whose parents have participated in ABA training
- Who need a bridge to help them through the summer months to smoothly transition back into their school environment.

*\*\*\*If the above statements do not accurately describe your students' experience with ABA intervention, BTLC recommends you discuss your student's case with one of our BCBA's. In most instances, those students who do not meet the statements described above would be better served in our year-round, one-on-one Day Program. This program will ensure they receive quality intervention to best support all of their needs.*

We have now developed a program that fits your needs! This program is not the loose schedule of summer camp or the rigorous schedule of an all-day clinical ABA program, but something in the middle that is geared towards those children who need structured support through the summer months.

Our Summer-Only ABA Program boasts a ratio of (1:3) one therapist to three students. All therapists are trained in our clinic to deliver high quality ABA intervention to our students. All students will receive a variety of assessments including the ABLLS-brief and social skills assessments. From these assessments each student will have specific goals identified by a Board Certified Behavior Analyst. All goals will be tracked daily and a summary progress note will be completed each day.

Centers Activities will be designed to promote fine/gross motor skills, language/communication skills, pretend play and visual performance skills. During centers the students will be working on independence in play, social skills, making appropriate requests, compliance, and generalization of skills mastered in the one-on-one environment. Each child will also participate in pull out, one on one ABA therapy utilizing a discrete trial format to teach individual skills. Skills taught during this one on one therapy time will include those indicated by the parent as well as skills indicated by assessment.

# BEHAVIOR TLC

BEHAVIOR THERAPY & LEARNING CENTER

We understand that children will still want the fun experiences we provided during summer camp and we intend to make that happen. The Summer-Only ABA Program will have special visitors such as the Houston Fire Department, Houston Police Department, The Houston Zoo, and many more!

All registration forms and a 50% deposit are due 3 weeks prior to the students first scheduled session (see due dates below.) Any late registration will require full tuition payment.
